NEW dish of the month!

coco mango chicken curry

Why do we love this?

Our mild and creamy chicken curry is rich with flavour from ginger, cumin, coriander, turmeric, and mild madras powder. Simmered in coconut milk and then with ripe mango and crunchy red pepper added right at the end, we then lift the flavour with a good squeeze of lime juice!

Our curry is full of flavour but warming rather than a spicy kick, so just perfect for little ones. We've added chickpeas, chicken and red lentils to our curry making this dish a good source of protein.
